ORGANIZATION OF THE REPORT	2
DATA SOURCES.....	4
COUNTY POPULATION	6
COUNTY PROFILES	8
STANDARD SCORES	55
STANDARD SCORE EXAMPLE	56
APPENDIX: ADDITIONAL DATA SOURCES	

OVERVIEW

The purpose of this report is to provide a timely update to the latest data on substance disorder indicators for county planners. Note it is not intended to be a replacement for the work of our state's SEOW group. The present report is an effort to meet the recent request of counties for data assistance in the development of their 2022-2023 county treatment plans. The report includes charts and tables for over 18 indicators of county risk factors associated with the development of substance use disorders. Through the assistance of our partner state agencies, we have included data indicators based on the research that are typically associated with substance use disorders. The framework for reporting these indicators is intended to provide a simple tool for planners to utilize to help make data-driven decisions in support of prevention and treatment planning activities. We recommend that the report be used in conjunction with other local knowledge resources to provide the best results.

ORGANIZATION OF THE REPORT

The first section of the report includes the county pages, each with its 2021 indicator ranks and percent change from previous year's results. Indicators were organized into the following data domains:

- **Alcohol**
- **Opioids**
- **Nicotine**
- **Social**

Ranks

The ranks were calculated based on the county rates or percentages reported and for the most part, work in the order of high risk to lower risk for the development of substance use disorders. Therefore, a county with a rank of "1" represents the highest risk for an indicator. Each indicator has a ranking and the domain is calculated by summing the ranks and dividing by the number of indicators in the domain. The overall county rank is simply an average of the domain rankings. Note for some indicators the rank is missing because the county rates were based on small sample sizes and, therefore not reliable. You will find a "*" mark in place of the value for these observations.

Standardized Scores

Following the county pages, we include a section which calculates and shows the standard scores (Z-Scores) for each indicator to give planners a quick reference to their county's standing statewide. A typical z-score for a county is calculated as a difference between a data value and the mean (state rate) of all values, divided by the standard deviation for all values. See the Standard Scores example report for more on Z-scores and how to interpret them. If the indicator is a "risk" factor, positive Z scores indicate the county has a higher rate than the state rate. The rankings and standardized scores are intended to highlight areas of concern.

For ease of interpretation, we have also categorized the z-scores into the following Risk Level Assignments:

1. **High**: standardized score ≥ 1.5
2. **Medium**: standardized score between 0.5 and 1.5
3. **Low**: standardized score ≤ 0.5

Finally, we include supplemental data of interest and up-to-date treatment admissions and discharges from the Carelogic system.

DATA SOURCES

Domain	Indicator	Source	Year
Alcohol	Binge Drinking Among Adults (%)	SC-DHEC	2017-2020
	Heavy Use of Alcohol Among Adults (%)	SC-DHEC	2017-2020
	DUI Crashes (Rate per 100,000 population)	PIRE	2020
	Alcohol-Related Hospitalizations (Rate per 100,000 population)	SC Revenue and Fiscal Affairs	2020
Nicotine	Cigarette Use Among Adults (%)	SC-DHEC	2017-2020
	Smokeless Tobacco Use Among Adults (%)	SC-DHEC	2017-2020
	County Authority Client Smoking Status* (%)	SC DAODAS	2021
	Nicotine-Related Hospitalizations (Rate per 100,000 population)	SC Revenue and Fiscal Affairs	2020
Opioids	EMS Naloxone Administrations (Rate per 100,000 population)	SC-DHEC, JustPlainKillers.com	2020
	Opioid Prescriptions Dispensed (Rate per 100,000 population)	SC-DHEC, JustPlainKillers.com	2020
	Opioid-Involved Overdose Deaths (Rate per 100,000 population)	SC-DHEC, JustPlainKillers.com	2020
	Opioid-Related Hospitalizations (Rate per 100,000 population)	SC Revenue and Fiscal Affairs	2020
Social	Unemployment (%)	US Department of Labor	2020
	HS Graduation Rate (%)	County Health Rankings	2020
	Children in Poverty (%)	Children's Trust of SC	2019
	Child Maltreatment Investigations (Rate per 10,000 population)	SC-DSS	2020

Additional Indicators			
Other Drugs	Fentanyl Overdose Deaths (Rate per 100,000 population)	SC-DHEC	2020
	Prescription Overdose Deaths (Rate per 100,000 population)	SC-DHEC	2020
	Total Drug Overdose Deaths (Rate per 100,000 population)	SC-DHEC	2020
Crime	DUI Arrests (Rate per 100,000 population)	SLED	2020
	Drug Law Violations (Rate per 100,000 population)	SLED	2020

* Percentage is based on county authority value and will be same for each county under the authority's purview
