Narratives

Program Summary:

In partnership with the South Carolina Alliance for Recovery Residences (SCARR), Oxford House International (OHI), and our network of community providers across the state, the S.C. Department of Alcohol and Other Drug Abuse Services (DAODAS) proposes the South Carolina Recovery Housing Program (RHP) in response to the Department of Housing and Urban Development (HUD) Federal Register Notice No. FR-6225-N-01.

For many individuals, achieving and maintaining recovery from a substance use disorder (SUD) is hindered by a lack of safe, affordable housing that is supportive of the recovery process. Recovery housing extends the continuum of care to provide support to individuals as they initiate, stabilize, and maintain long-term recovery in the community. As the Single State Agency for Substance Abuse Services (SSA) in South Carolina, DAODAS will bring partners together to provide stable, transitional housing for individuals in recovery from a SUD. We will enhance physical and psychological safety through supportive transitional housing and short-term housing assistance and assist the public by improving their well-being through linkage to an array of wrap-around support services.

Through the implementation of recovery housing rental assistance from RHP funds, DAODAS will seek to address this gap and provide for greater access across all racial, ethnic, and socioeconomic populations in the state. Safe, stable, recovery-focused housing addresses foundational physiological and safety needs, and removes barriers traditionally set in place by an individual's social determinants of health.

DAODAS' goal with the implementation of the RHP plan is to provide safe, stable, and recovery-supportive housing to individuals meeting the Limited Clientele National Objective described in the RHP Notice. As such, funds will be made available to those individuals who meet the national criteria for low- to moderate-income individuals. It is believed that individuals who meet this criterion have historically found themselves priced out of receiving the same level of care as those whose income levels are greater. These increased financial burdens often force those seeking or maintaining recovery to focus on shelter and security needs at the expense of recovery efforts. RHP funds would directly impact individuals of low to moderate income levels by alleviating this financial burden and providing the basic security and shelter that are essential to individual needs.

DAODAS plans to provide applications for housing assistance via the agency's website. Applications will be submitted, reviewed, approved or denied, and correspondence sent to applicants as well as housing providers (as necessary). If an application is denied, an electronic communication will be sent informing the applicant and describing the reason(s) for denial. If approved, notifications - along with process logistics - will be communicated electronically to both the applicant and the housing provider when selected.

Through extensive work, DAODAS has developed significant partnerships that address the diverse needs of those entering and residing in recovery housing across South Carolina. Key partners include SCARR, OHI, S.C. Department of Commerce, S.C. Department of Corrections, as well as county alcohol and drug abuse authorities throughout the state. Many of these partners, existing and new, will be part of our advisory council for this program and serve as referring agencies. As experts in recovery housing and SUD treatment and recovery services, each entity and their respective designees bring a wealth of experience and knowledge to bear when serving the public. This system will develop a comprehensive network of partners in recovery housing to address the well-being of participants and promote long-term recovery.

The focus of this initiative is to provide access to safe and stable recovery-supportive housing, while helping increase access to recovery-supportive wrap-around services. Additional key performance outcomes include helping individuals secure permanent housing, gaining employment, engaging in recovery support services, and ascertaining the demographic makeup of those in the program.

The South Carolina RHP will utilize statewide support to address the key gap in access to recovery housing in South Carolina. Safe and stable housing is an essential component of sustained recovery from an SUD. This application’s award of \$1,150,177.00 under the Federal Fiscal Year 2023 (FFY23) allocation will be used in the furtherance of the nationwide objectives set forth in the announcement. During the life of this funding, DAODAS anticipates serving 350 unique individuals, helping 5 unique individuals secure permanent housing, increasing access to recovery-support services for 250 individuals, and helping 150 individuals gain employment.

Resources:

DAODAS partners with other state agencies, non-profit organizations, private organizations, and county agencies to provide resources and services for those seeking and/or maintaining recovery from an SUD.

DAODAS is the Single State Authority for South Carolina and is tasked with the administration of prevention, treatment, recovery, intervention, and compliance needs for federally funded SUD providers throughout the state. DAODAS administers funding and compliance for 32 county agencies that deliver direct services to all 46 counties. As such, DAODAS serves as the fiduciary agency that administers multiple federal grants. Many of these support initiatives consistent with the goals of the RHP, such as the Substance Abuse Prevention and Treatment Block Grant (SABG) from the Substance Abuse and Mental Health Services Administration (SAMHSA), as well as the State Opioid Response Grant (SOR) from SAMHSA and its predecessor, the State Targeted Response Grant (STR). Through these funding sources, DAODAS provides financial mechanisms to deliver evidence-based practices for prevention, treatment, and recovery-support services. These organizations provide the wrap-around services needed for those individuals seeking or maintaining recovery from an SUD. All 32 county agencies are CARF or Joint Commission accredited. Six of the nine recovery community organizations in the state are accredited by the Association of Recovery Community Organizations. The state’s opioid treatment providers (OTPs) are CARF accredited.

Administration Summary:

Jan Nerud, DAODAS Grants Administrator, will serve as the Project Director for South Carolina’s Recovery Housing Program. As the Project Director, his primary roles will be to ensure both fidelity and comprehensive coordination for application review, participant communication, and coordination of fund disbursement to all approved housing entities. Mr. Nerud has a B.S. in Psychology, has been certified as an Alcohol and Drug Counselor (CADC), has over six years of behavioral health experience, and is the current point of contact for recovery housing projects in the state.

Jan Nerud
 Grants Administrator

 jnerud@daodas.sc.gov

Use of Funds - Method of Distribution:

Use of Funds: FFY23

Use of Funds: Federal Fiscal Year 2023

Method of Distribution	Amounts
Total Award	\$1,150,177.00
Administrative Costs (5%)	\$ 57,508.85
Technical Assistance (3%)	\$ 34,505.31
Recovery Housing Assistance	\$1,058,162.84

In compliance with award requirements, 30% of the funding for housing assistance from the FFY23 allocation, totaling \$345,053.10, will be expended within the first 12 months of program implementation. As stated previously, all funds will be expended to serve those individuals that meet the Limited Clientele National Objective set forth in the RHP announcement. All funds will be used to serve those individuals identified as being at low to moderate income levels to provide unencumbered access to basic recovery housing and security needs.

Oxford House Inc. and the South Carolina Alliance for Recovery Residences will submit monthly reimbursement requests to DAODAS by the eighth working day of the month for residents in their respective homes. These requests will be for the previous month’s totals. DAODAS will submit drawdown requests via Disaster Recovery Grant Reporting (DRGR) and make payments to Oxford House Inc and SCARR. Oxford House Inc and SCARR will be responsible for disbursing payments to individual houses. Monthly assistance will be available for up to \$1,250.00 per applicant, to be used to cover the approved applicant’s rental fees. This fee was determined by comparing local rental fees, recovery residence fees, and income levels for potential participants. Based on this research, it was determined that this level of support would allow the greatest level of participation without financially excluding one organization over another.

Use of Funds - Activities Carried Out Directly:

Use of Funds -FY23

Use of Funds: Federal Fiscal Year 2023

Method of Distribution	Amounts
Total Award	\$1,150,177.00
Administrative Costs (5%)	\$ 57,508.85
Technical Assistance (3%)	\$ 34,505.31
Recovery Housing Assistance	\$1,058,162.84

In compliance with award requirements, 30% of the funding for housing assistance from the FFY23 allocation, totaling \$345,053.10, will be expended within the first 12 months of program implementation. As stated previously, all funds will be expended to serve those individuals that meet the Limited Clientele National Objective set forth in the RHP announcement. All funds will be used to serve those individuals identified as being at low to moderate income levels to provide unencumbered access to basic recovery housing and security needs.

Oxford House Inc. and the South Carolina Alliance for Recovery Residences will submit monthly reimbursement requests to DAODAS by the eighth working day of the month for residents in their respective homes. These requests will be for the previous month's totals. DAODAS will submit drawdown requests via Disaster Recovery Grant Reporting (DRGR) and make payments to Oxford House Inc and SCARR. Oxford House Inc and SCARR will be responsible for disbursing payments to individual houses. Monthly assistance will be available for up to \$1,250.00 per applicant, to be used to cover the approved applicant's rental fees. This fee was determined by comparing local rental fees, recovery residence fees, and income levels for potential participants. Based on this research, it was determined that this level of support would allow the greatest level of participation without financially excluding one organization over another.

Use of Funds - Eligible Subrecipients:

Applicants for the RHP must identify as being in recovery from an SUD and meet low- and moderate-income guidelines in accordance with the stated Limited Clientele National Objective set forth in the RHP announcement. Individuals who are currently housed in a recovery home and are seeking rental assistance may be eligible for funding; however, any individual who has been a resident of a recovery home - at the time of submitting their application - for 181 days or more (uninterrupted) shall not be eligible for funding. Exceptions may be made on a case-by-case basis for extenuation circumstances. Priority will be given to individuals who are currently unhoused or leaving a non-residential setting. No funding will be disbursed directly to a participant. All payments will be made directly to houses certified through the SCARR, OHI, or rental sites with access to recovery support services provided by a DAODAS-funded initiative. Such rental site payments will only be made in a case where there are no SCARR-certified houses or Oxford Houses within a 50-mile radius of the participant's location. Funds will be available for individuals for a period not greater than two years or until permanent housing is secured, whichever occurs first.

Use of Funds - Criteria for Evaluation:

Individuals will apply via the DAODAS website under the "Recovery Housing Assistance Program" page and will be asked to provide information regarding their specific need(s) along with current area of residence, and financial status. Individuals will be asked if they are currently seeking or are in recovery from an SUD, and if they are willing to reside in a recovery residence that is either an Oxford House or certified by SCARR. Additional demographic information will be collected at the time of application, along with agreements to participate in three-, six-, nine-, 12-, and 18-month follow-up surveys for as long as they are utilizing RHP funds. Individuals will be approved who meet low to moderate income requirements, are in or seeking recovery from an SUD, state a willingness to reside in an Oxford House or SCARR-certified recovery residence, and participate in follow-up surveys.

Definitions - Individual in Recovery:

1. An individual in recovery from a substance use disorder is a person who is in the process of change to improve their health and wellness, live a self-directed life, and strive to reach their full potential.

Definitions - Substance Use Disorder:

1. A substance use disorder is the continual use of alcohol and/or other drugs in such a way that causes clinically significant impairment. This impairment includes, but is not limited to, physical and mental health, as well as impacts on social, economic, and familial life.

Anticipated Outcomes:

DAODAS will develop a comprehensive data collection, monitoring, and reporting mechanism that provides detailed information about the RHP's impact on the state of South Carolina. DAODAS plans to track the number of individuals who gain access to safe and stable housing through RHP funds; the number of individuals who were able to transition to permanent housing that received RHP funds; the number of individuals engaged in recovery support services who received RHP funds; the number of individuals who became employed who received RHP funds; and the demographic makeup of individuals served through RHP funds. The Project Director will collect and analyze data to see if projected outcomes are being met. In order to track performance measures, everyone receiving housing assistance will be made aware of a three-month, six-month, 12-month, 18-month, and 24-month follow-up survey that will be required to maintain program compliance. For those individuals who utilize 24 months of funds or obtain permanent housing, voluntary satisfaction surveys will be sent to help evaluate participant perceptions of challenges and successes.

Objective

Projected Outcome

Number of individuals who gain access to safe and stable recovery-focused housing

300

Number of individuals who transition to permanent housing after receiving RHP assistance

5

Number of RHP awardees who engage in recovery support services

250

Number of RHP awardees who gain employment

150

Demographic analysis of RHP awardees

300

(to be collected on applications)

The RHP Project Director understands the requirements for data collection and reporting, and as a result will report all performance measures in DRGR. Annual reports will include comparisons between proposed and actual metrics along with qualitative descriptions of program practices.

Additionally, DAODAS will form a public advisory council that will be made up of representatives from Oxford House Inc, SCARR, recovery community stakeholders, DAODAS RHP Program Manager, and eventually RHP recipients, in order to collectively evaluate and inform RHP outcomes.

Expenditure Plan:

DAODAS will comply with all guidelines set forth in the RHP award notification. DAODAS will spend at least 30% of the award in the first 12 months of plan implementation. DAODAS plans to utilize 100% of funds prior to the conclusion of the performance period, September 1, 2027, and acknowledges that Section 8071(d)(2) states that no matching funds are required. The need to provide access to safe and stable recovery-focused housing is a substantial gap in South Carolina. DAODAS does not anticipate any significant barriers to expending all RHP funds. DAODAS' administrative costs shall not exceed 5% of the total award, and technical assistance costs shall not exceed the required 3% of the total award. There will be no program income generated as a result of this initiative.

Citizen Participation Summary:

On July 24, 2023, South Carolina’s FY23 draft plan was made available to the public on the DAODAS website at Grants (sc.gov). An e-mail address was provided for all questions, comments, and concerns that the public might have in relation to DAODAS’ submission. After the required 15-day period, no additional questions or comments were received.

Partner Coordination:

DAODAS has partnered with state, county, public, and private organizations for the successful implementation of increased access to recovery-focused housing and wrap-around services for South Carolina. Following are several of these organizations and the roles they play.

Oxford House

Oxford House is a long-standing housing concept in recovery from alcohol and other drug addiction. In its simplest form, an Oxford House is a democratically run, self-supporting, substance-free home. The number of residents in a house may range from six to 15; there are houses for men, houses for women, and houses that accept women with children. DAODAS and Oxford House have maintained a strong relationship over the past 10 years, and as a result of this partnership, Oxford House has been able to grow in South Carolina and meet the ever-changing needs of those seeking safe and stable recovery-focused housing.

South Carolina Alliance for Recovery Residences (SCARR)

SCARR is a 501(c)(3) nonprofit organization that was formed in 2018 to serve the recovery community by providing a single point of access for information regarding recovery residences and related organizations in the state. The primary focus of SCARR is the development and maintenance of clear and consistent standards for recovery residences in South Carolina and using these standards as the basis for non-biased certification statewide. SCARR strives to maintain clear communication regarding these standards of care for recovery residences and the associated communities, while ensuring credibility, ethical conduct of members, and excellence in all interactions with the South Carolina recovery community.

As an affiliate of the National Alliance for Recovery Residences, SCARR is responsible for ensuring that the recovery residence certification process is consistent with the national standard.

County Alcohol and Drug Abuse Authorities

South Carolina contracts with 32 county agencies serving all 46 counties. Each organization provides comprehensive prevention, treatment, and recovery services through evidence-based practices. County authorities have medical, clinical, and peer support professionals on staff to ensure the highest level of efficacy in the delivery of direct services. DAODAS works closely with each agency on the framework for services, routinely provides technical assistance, and serves as the liaison between each agency and SAMHSA. These deep and lasting partnerships have built a bond of trust that benefits the public. The county agencies predominantly see a low- to moderate-income population and will serve as a major source of recovery housing referrals for the RHP.

Recovery Community Organizations (RCOs)

An RCO is a community-based, non-profit, peer-run center for “all things recovery.” DAODAS funds nine RCOs that provide a broad scope of services to support those seeking and/or maintaining recovery. RCOs will be able to not only provide recovery services for those in recovery housing but serve as a referral source for those in need of safe and stable recovery housing.

S.C. Department of Corrections (SCDC)

DAODAS serves those currently incarcerated through a partnership with SCDC to provide peer support services to individuals “behind the wall.” This DAODAS initiative provides for medication-assisted treatment/recovery for those currently incarcerated and soon to be released. At this time, South Carolina boasts one of the lowest recidivism rates in the nation at a combined 23.1%. Those citizens returning from incarceration are in a greater need for increased access to safe and stable housing. Returning citizens are a priority focus for RHP funds.

Faith-Based RCOs

DAODAS recently awarded funds to three faith-based/focused RCOs. These are the first of their kind in South Carolina and will increase access and engagement of recovery support services available in the Midlands and Upstate regions. Faith-based/focused RCOs will be able to not only provide recovery services for those in recovery housing but will serve as a referral source for those in need of safe and stable recovery housing.

Opioid Treatment Programs (OTPs)

OTPs treat the public by assessing for, prescribing, and monitoring Food and Drug Administration (FDA)-approved medications for the treatment of opioid use disorder (OUD). An OTP provides counseling and education for a patient’s SUD needs, as well as the prevention of human immunodeficiency virus (HIV). OTPs can be a stable and convenient point of facilitation for the treatment of OUD through the use of medication.

Collegiate Recovery Programs (CRPs)

DAODAS funds three CRPs across the state that provide a full array of wrap-around services to students in recovery from an SUD. As RHP participants explore ways to improve their lives and reach their full potential, CRPs will potentially play a role in participant’s lives.

Subrecipient Management and Monitoring:

DAODAS has the capacity and ability to ensure RHP programmatic implementation, monitoring, and reporting requirements. There are no projected subrecipients for program implementation.

Pre-Award/Pre-Agreement Costs:

There are no pre-award or pre-agreement costs to be reimbursed with RHP funds.

Overall Progress Narrative:

SCRHP Project Narrative

October 1, 2022 – September 30, 2023

South Carolina's Recovery Housing Program (SCRHP) has focused on providing safe, stable, recovery-supportive housing to the greatest number of qualifying citizens in need, while staying committed to removing the barriers that have historically placed housing out of reach for so many. This initiative supports the S.C. Department of Alcohol and Other Drug Abuse Services' (DAODAS) commitment to reducing barriers to services along the recovery continuum. Housing stability not only addresses one of humanity's primary needs – safety – but also helps address equity barriers and an individual's social determinants of health. These foundational needs are at the core of DAODAS's vision and goals for the SCRHP.

DAODAS is determined to meet the needs of the public efficiently and effectively, seeking to reduce the financial barriers that exclude many from safe and stable housing. Individuals who are seeking or newly maintaining recovery often experience financial hardships resulting from their substance misuse. Many individuals are overwhelmed by the prospect of housing insecurity, food insecurity, job insecurity, and varying degrees of stability. DAODAS concluded that one way to impact these challenges was to remove a primary financial burden, namely housing. Removing this barrier may simultaneously decrease food insecurity and increase overall financial stability. Two of the SCRHP's overarching goals are to increase the self-efficacy of program participants and to help every individual realize their dream of long-term recovery. Beginning in October 2022, DAODAS spent the remainder of the year working to finalize program components, create internal processes, and build the web-based assistance application. Program implementation began in January 2023, with the first SCRHP participants being approved and notified on January 11, 2023.

DAODAS did not meet the projections for individuals transitioned to permanent housing. DAODAS believes there are more individuals that have transitioned to permanent housing than we are able to effectively report on, however, those that have transitioned to permanent housing have been reluctant to respond to follow-up surveys.

As of September 30, 2023, the SCRHP has served 1,449 unique individuals by providing them with access to safe and stable recovery housing. An additional 24 individuals have secured permanent housing, and over 1,000 have participated in recovery support services while residing at a recovery home.

The impact that the SCRHP has had on individuals goes beyond the simple financial support for those in or seeking recovery. As evidenced by the responses to the follow-up surveys, SCRHP participants have expressed their personal gratitude for the opportunities that the SCRHP has created for them. When asked if they considered their time thus far in a recovery residence a positive experience, one respondent wrote, "Most definitely!! It has given me the structure and unity that has been a huge part in me staying clean. Also, laying my head somewhere safe." Another participant wrote, "I have been able to gain my license and maintain a job as well as continue to remain completely sober due to this opportunity." The impact of the SCRHP goes far beyond the metrics we utilize to calculate success. The primary metric is the lives that have been transformed due to the availability of safe, stable, recovery-supportive housing.

Another accomplishment of the SCRHP is the establishment of more certified recovery homes. SCRHP participants can utilize the rental assistance funds at a nationally recognized home. The two primary nationally recognized bodies for recovery homes are Oxford House Inc. and the National Alliance for Recovery Residences' state affiliate, the South Carolina Alliance for Recovery Residences (SCARR). When the SCRHP began, there were 678 Oxford House beds and 130 SCARR-certified beds in South Carolina. At the time of this report, Oxford House has increased its capacity to 787 beds (a 16.08% increase), and SCARR-certified beds have increased to 536 (a 312% increase). These increases will have long-term positive outcomes for not only SCRHP participants, but South Carolina as a whole. These increases have changed the recovery home landscape for the state, allowing for 505 new beds that will serve 505 more individuals in need of safe, stable, recovery-supportive housing.

South Carolina has been able to utilize all of the Fiscal Year 2021 award and 85.6% of the Fiscal Year 2022 award. The SCRHP received a higher-than-expected number of initial applications. DAODAS was forced to pause new applications for three weeks to efficiently process the applications received in January and February 2023. After reactivating the application process, DAODAS implemented new policies and procedures to ensure that all applications were processed in an agreed-upon time frame. DAODAS set up an e-mail address, housing@daodas.sc.gov, as the "funnel" for all SCRHP questions. This e-mail is staffed by the SCRHP program manager and DAODAS's paralegal, whose programmatic support has been instrumental to its success.

Today, many local and state organizations have begun to partner with the SCRHP to assist their clients. The public Richland Library's main branch, which is located near the DAODAS offices in Columbia, S.C., serves many individuals experiencing homelessness and has been in contact with DAODAS routinely to assist its patrons. The S.C. Department of Veterans Affairs recently contacted DAODAS to inquire about the SCRHP's programmatic procedures to determine if there is a way to implement a similar program at their agency. DAODAS has also seen interagency collaboration with the S.C. Departments

of Social Services, Corrections, and Mental Health. The SCRHP has opened lines of communication across the state and increased public awareness of the need for safe and stable housing. SC DAODAS posted the FFY23 Report on its website at Grants (sc.gov). After the required fifteen (15) days of posting for public comment, no comments were received, and the report was not changed materially. The changes made reflect the public comment period and the additional explanation for not meeting the individuals transitioned to permanent housing.

Project Summary

Activity Description:

To provide rental assistance opportunities for individuals in recovery who are residing in a SCARR certified recovery home.

Location Description:

Activity Progress Narrative:

As of September 30, 2023, the SCRHP, through its collaboration with the South Carolina Alliance for Recovery Residences, has served 395 unique individuals by providing them with access to safe and stable recovery housing. An additional 11 individuals have secured permanent housing, and 395 have participated in recovery support services while residing at a recovery home.

Another accomplishment of the SCRHP is the establishment of more certified recovery homes. SCRHP participants can utilize the rental assistance funds at a nationally recognized home. The two primary nationally recognized bodies for recovery homes are Oxford House Inc. and the National Alliance for Recovery Residences' state affiliate, the South Carolina Alliance for Recovery Residences (SCARR). When the SCRHP began, there were 130 SCARR-certified beds in South Carolina. At the time of this report, SCARR-certified beds have increased to 536 (a 312% increase). These increases will have long-term positive outcomes for not only SCRHP participants, but South Carolina as a whole. These increases have changed the recovery home landscape for the state, allowing for 406 new beds that will serve 505 more individuals in need of safe, stable, recovery-supportive housing.
